David is a reputable, testifying independent delay expert working internationally. He is an experienced Chartered Engineer, Project Manager, and Delay Expert with extensive experience in delay analysis on major construction projects globally in all dispute resolution forums, including Adjudication, Arbitration, and Litigation.

David has worked as a Technical Engineer, Design Manager, and Project Manager on large projects for major clients. As a result, he has gained experience across all stages of a project's lifecycle, including design, construction, commissioning, and certification. He applies his project experience and technical knowledge to focus on and support clients as a delay expert witness in all dispute resolution forums and provides strategic advice pre-litigation. In Arbitration, David focuses on delivering the highest quality work and testifying performance.

David is a founding member and vice-president of the Society of Construction Law France. He also established himself as a leading technical advisor in engineering through his research work with Oxford, Cambridge, and Imperial universities in the UK.

He is a three-times Chartered Engineer in Europe (EUR ING), the UK (CEng), and an Offshore Marine Engineer (CMarEng). Mr Coyne holds three masters from leading universities, including an MSc in Construction Law & Dispute Resolution from Kings College London, UK, an MSc in Geotechnical Engineering from Imperial College London, UK and an MEng in Civil Engineering from University College Dublin, Ireland.
