Europe  
Middle East

Clients choose Natasha Fortune for her credibility as a Chartered Quantity Surveyor and Construction Quantum Expert with over 15 years of experience in the construction and engineering industry. She brings extensive international expertise across Europe and the Middle East and has acted as a testifying expert on multiple occasions.

Natasha is a specialist in cost management, claims, and dispute resolution, recognised for her clear, detailed, evidence-based analysis and practical insight. With experience spanning infrastructure, buildings, power, and energy sectors, she is trusted by owners, contractors, and public bodies alike for her independence, precision, and reliability.

With a strong technical background, Natasha provides expert quantum analysis for disputes across a wide range of sectors, including infrastructure, buildings, power, energy, and industrial projects. She has acted under leading international arbitration rules, including ICC, SCC, SIAC, LCIA, and UNCITRAL.

Natasha's experience includes supporting project owners, contractors, and public bodies in evaluating prolongation costs, disruption, variations, and financial damages, as well as advising on strategies to mitigate and resolve construction disputes.
