Tim Baillie is a chartered civil engineer with over 15 years' of practical experience gained in the delivery of major construction and infrastructure projects, most recently as a project director.

He has extensive knowledge of the design, procurement, offsite manufacturing, construction, quality assurance/control, testing and commissioning processes, allowing him to simplify complex projects.

Tim has been appointed as an independent expert witness on construction management, project management and delay matters in conciliation, adjudication, arbitration, and litigation.

Lexology says "*Tim Baillie is a "diligent and highly experienced practitioner, presenting advice in a structured and evidence-based manner." His "depth of knowledge, which is outstanding" and "ability to identify the key issues in a situation and provide advice and expertise" underscore his reputation as a leading expert in complex construction matters."*

This expert has the following cross-examination experience:

- Successfully completed external cross examination courses

This expert has recently been instructed by:

- High Court
- Commercial Court
