Middle East

Vincent Lefeuvre has over 25 years' experience working on international construction projects.

He specialises in dispute management and prevention, and is recognised as an expert in his field. He is regularly called upon to testify independently about his work before arbitral or judicial tribunals, as well as providing strategic support to clients during amicable dispute resolution proceedings. He has extensive experience in defending his positions both orally and in writing.

Vincent has acquired expertise in a wide range of construction sectors, including rail (signalling, rolling stock and infrastructure), oil/gas, chemicals, energy, civil aviation, automotive and real estate, and assists his clients in their strategic approach to defending their interests in various contexts. His areas of expertise include: expertise and expert determination, expert testimony, delicate negotiations, risk analyses and situation audits of construction projects in the execution phase, covering their contractual, time, quantum and technical aspects. He also participates in a number of think tanks and training programmes.
